

Plano Photography Club

PPC COMPETITION RULES

Adopted by the PPC Executive Committee, September 2018

PURPOSE OF COMPETITIONS¹

The purpose of the PPC competition is to encourage members to practice their art through monthly contests, to provide educational opportunities for improvement, and to reward members' photographic achievements. The PPC Executive Committee (the PPC Board) must approve changes to the rules governing the competition.

CHANGES

Changes to these rules may be made by a simple majority of the PPC Board.

COMPETITION YEAR

Contests are conducted on a monthly basis beginning in May and continuing through the following April except for December.

IMAGE FORMATS

There are two image formats, electronic and print, but only one format is accepted each month as defined by the Board.

CLASSES (LEVELS)

Club members compete in one of four classes based on photography skills.

- First-time competitors may choose to compete in either the Entry class or the Intermediate class.
- A member may solicit the Board to begin in the Advanced class, but the Board must be familiar with the member's body of work.
- Returning members (those who have not competed for at least a year) compete in the class equivalent to their previous class.
- A club member must compete in the same class throughout the competition year.
- A member may choose to change classes (to Entry or Intermediate) at the end of the competition year after consultation with the Contest Chairman.

Entry (E) – One who is learning the basic operation of the camera and the basic concepts of composition, exposure, lighting, and post-processing of images.

Intermediate (I) – One who is comfortable with photography fundamentals and is knowledgeable in the concepts of composition, exposure, lighting, and post-processing techniques for creating images.

Advanced (A) – One who is experienced in the technical aspects of the camera and proficient in the concepts of composition, exposure, lighting, and post-processing techniques for creating images. May be skillful in more than one genre of photography, for example, landscape, portrait, macro, photojournalism, wedding, etc.

¹ Contest is used for a single event, such as "monthly contest." Competition refers to an extended event, such as the PPC yearly competition.

Plano Photography Club

Master (M) – One who can teach others the concepts of composition, exposure, lighting and post-processing of images, and has provided significant service to the club as an active officer and is expected to continue to serve as a teacher, activity coordinator, tabletop leader, etc.. Has the skills necessary to provide meaningful critique of others' images and is skillful in several genres of photography, for example, landscape, portrait, macro, photojournalism, wedding, etc. Must have been an active member of the club at least one year.

CONTEST THEMES

In order to encourage competing photographers to expand their skills and to try different subjects, themes are assigned to some of the months. Assigned themes and their definitions are approved by the Board. The calendar of themes is announced at Club meetings, and is published on the Club website and in the Club newsletter.

Entries in the monthly contests should reflect the contest themes. In months designated as Open, images are not constrained to a particular theme.

SPECIAL INTEREST CONTESTS

There may also be special interest contests at the end of the competition year for those members who wish to photograph specific themes. These will be announced at Club meetings, on the Club website, and in the Club newsletter.

The special interest contests will not use the competition classes, nor will any Image points or Place points be counted in the totals for the PPC yearly competition. The special interest contests will not contribute to Photographer of the Year or the other end-of-year recognitions.

The entry standards for images that apply to the monthly contests apply to the special contests also. Images that have been awarded a 1st, 2nd, 3rd place or Honorable Mention in either a monthly contest or a special interest contest may not be entered in a contest of the other type.

IMAGES

- Images may originate from any medium (film, electronic sensor, or future technology for recording photographic images.)
- Images must originate as photographs created by the entrant. Post-processing, including composites of several original images, is allowed if produced by the entrant.
- Design elements may be added to the image if created by the entrant; however, images must not be solely computer-generated graphic art.
- Images must be the creation of the photographer and not solely an image capture of another's art work. If another's art work is included in an image, the photographer must contribute further insight with compositional elements, such as unique lighting or a unique perspective.
- Printed images may be printed by the entrant, another individual, or a commercial lab; however, alterations such as color correction and white balance must only be made by the entrant.
- Images must not depict the desecration of religious symbols.
- Images must not show more live female nudity than a bikini would show or more live male nudity than a swimsuit would show. See-through fabric is considered the same as exposed skin.
- Images must not contain any text, titles, or watermarks identifying the entrant.
- Images that were submitted to a PPC contest are eligible to be resubmitted to a later PPC contest, except as noted in the discussion of Points below.

Plano Photography Club

JUDGING

Judging of images is intended for the education of club members so they may improve their photography skills.

- Judges are selected by the Contest Manager and may be members of the Plano Photography Club or persons outside the club membership. Only one judge is required for each contest; however, the number of judges is not limited to one.
- Judges are given the same theme and description that members receive and may disqualify any entry they deem does not meet the stated theme. A disqualified image earns zero points and there is no appeal.
- The photographer's name is not revealed to the judge during judging.
- Judges are asked to give helpful critiques for every submitted image.

POINTS

Points are awarded to each submitted image by the judge and are used for advancement and recognition. Points are not carried over to the next competition year.

Image points (also called Judge's points) are awarded by the judge based solely on the merits of the image and not in competition with other images. The judge considers impact, composition, and the technical aspects of the image in determining the point value. No image scores less than 6 points, and the maximum number of points is 15.

Place points are awarded for 1st, 2nd, 3rd, and HM in each class (level). There is also an overall Best of Show (BoS) award selected from the 1st Place images only. The point values are:

- | | |
|------------------------|----|
| • First Place | 10 |
| • First Place with BoS | 11 |
| • Second Place | 6 |
| • Third Place | 3 |
| • Honorable Mention | 1 |

The number of awards depends upon the number of entries, as follows:

- | | |
|---------------------|---------------------------------------------------------------------------------------------------|
| • 4 or more entries | award 1 st , 2 nd , 3 rd Place and an optional Honorable Mention |
| • 3 entries | award 1 st and 2 nd Place only |
| • 2 entries | award 1 st Place only |

For the purposes of recognition as described below, each photographer's total of Image points plus Place points is calculated, with each photographer's lowest scoring image (i.e., the total of Image points and Place points for that image) first being dropped from consideration.

Images that have received Place points in any previous PPC contest in any division or class are not eligible for succeeding contests. This extends to any images created by the same entrant that are substantially similar to those that have received Place points. Prior to the 2011-2012 competition year, Honorable Mention images did not receive Place points and, thus, are eligible. If an image is dropped due to being a photographer's lowest scoring image for the year, that image is eligible to be submitted in a subsequent year's contest, even if it received Place points.

RECOGNITION

Each month the images that receive 1st, 2nd, or 3rd Place in each class are included in the following month's newsletter; honorable mention images may be included, if there is space. The Best of Show is featured with

Plano Photography Club

commentary by the photographer. The current competition standings are published in each month's newsletter. Place-winning images may also be displayed on the Club's web site and Facebook page.

At the end of the competition year, plaques are awarded as follows:

- Photographer of the Year – Awarded to the photographer, regardless of class, who submitted at least six entries during the year and has the highest total of Image points plus Place points for the year. The Photographer of the Year is the honored speaker for a monthly club meeting.
- Highest Points in each class – Awarded to the photographer in each class with the most Image points. Ribbons are awarded to those with the second and third highest Image points.
- Digital Image of the Year – Selected by a judge from the digital images receiving First or Second place throughout the competition year. Ribbons are awarded for Second and Third Place.
- Print Image of the Year – Selected by a judge from the print images receiving First or Second place throughout the competition year. Ribbons are awarded for Second and Third Place.

ADVANCEMENT

- Advancement is determined based on Place points received during the full competition year (May – April).
- Participants in the **Entry** or **Intermediate** class who earn 35 or more Place points in the competition year must advance to the next class for the ensuing competition year.
- The Board may recommend additional advancements to equalize the distribution of participants among the classes or the level of expertise within a class.
- Advancement to the Master class is at the invitation of the PPC Board.
- Participants in the **Advanced** class who earn 35 or more Place points in the competition year must also meet the criteria for Master class, as listed in the description of the classes, to be considered for advancement by the PPC Board.

PPC COMPETITION PROCESS GUIDELINES

Adopted September 2018

PROCESS GUIDELINES

The competition processes are intended to expedite the submission, management, and judging of images while providing a positive, rewarding, and instructional experience for club members.

CHANGES

At times, the contest manager may find it necessary to change a process depending on available technology, resources, or people. The contest manager should advise the PPC Board of process changes, but no approval is needed.

ENTRY PROCESS

1. Members must register on the Competition web site <http://plano.photoclubservices.com> to submit images to the monthly contests.
2. Members are encouraged to compete in the proper class based on their skills. (No sand-bagging, please.)
3. Entrants may submit only one image each contest month.
4. Images must be submitted through the Competition web site following the instructions defined there concerning size, file type (jpg) naming, and deadlines. This includes an electronic version of print images also. Currently, the maximum image dimension is 4096 (width) x 2160 (height) for best projection for judging and showing.
5. Entries that do not adhere to the Image rules may be disqualified by the Contest Manager and withdrawn from the contest. If there is enough time before the contest deadline, the submitter may enter a different image. The submitter may appeal the decision to the PPC President, whose decision is final.

FURTHER STEPS FOR PRINTS

1. Print images must be mounted but not framed.
2. The physical dimensions of the mounted entry must be no larger than 16" x 24".
3. A top mat is optional. (Matting necessitates the reduction of the image size since the mat must adhere to the maximum mounted entry size limits.)
4. The physical size of the image must be no smaller than 64 square inches and no larger than 16" x 24" (un-matted). For panoramas, the minimum size is 96 square inches and no longer than 24" (un-matted). The aspect ratio of panoramas should be 2:1 or greater (3:1, 4:1, etc.)
5. Print entries must have a label on the back with the submitter name, class, image title, and an arrow indicating the top of the image. Labels may be generated from the Competition web site when submitting the electronic version of the print.
6. Prints may be brought to the club meeting in a protective sleeve, but the wrapping should be removed before handing over the print to the Contest Chair.
7. Prints must be physically submitted to the Contest Manager before the end of the month's club meeting.

Plano Photography Club

ADVANCEMENT PROCESS

1. The PPC Board reviews the points awarded during the competition year and identifies those who must advance to the next class for the coming competition year.
2. The Board has the option of inviting additional participants to advance. It may consider class standing, or a photographer's consistent level of excellence, or the distribution of participants among the classes. Those invited to advance may reject the invitation.
3. The PPC Board considers for advancement to Master class those who have met the Advancement criteria and meet all the criteria for Master class.
4. The Contest chairman or a designated representative must inform the participants who have been identified and selected for advancement, and obtain consent from those to whom invitations were made.
5. The final class changes must be made in the Competition web site before the May contest opens. The May opening date may be postponed to allow time for the Board to receive the final scores, make evaluations, and inform participants.
