Best In Show: Tangled Up In Blue By Don Champlin

Having an interest in snakes and being in frequent communication with owners of reptile collections and relocators put me in a position to know when this Texas coral snake was found and captured for relocation in East Texas. I loaded up a full compliment of studio lights and equipment I have put together specifically for small animals and reptiles. The snake was located in Longview and so that's where I took all my equipment and set up shop in the collectors small 8'x10" snake room full of 15 or so cages filled with various snakes, non-venomous and venomous, along with a Texas tortoise.

This was not the best scenario for working with and photographing a highly venomous snake. Although coral snakes have the most toxic venom of all US snakes, they are not aggressive and are slow to bite in defense, usually. The snake was photographed with both a 24-70mm and 180 macro lenses on white Foamcore and black Plexiglas while being lit with 3 Einstein studio strobes. This snake, typical of coral snakes, likes to hide its head and tucks it under its body coils, as they prefer darkness since they spend most their lives underground. I photographed for an hour or so working many angles directing the handler to coax some artistic curves from my deadly model.

After the shoot the images were processed first in Capture One 11. This is the software I use while shooting tethered and is my standard preferred software and protocol for studio work. Basic tones, saturation, and contrast were done first, then clarity and sharpening. The image was sent to Photoshop CC for further tweaks where I painted color into the blown highlight caused by the super glossy scales. The background is a composite of two separate images blended together and masked onto the original snake image. I then sent it into Topaz color effects for additional refining which brought my blue hues into the image.

After 50 years in Pediatric Radiology, Lois retired in 2012 as Assistant Director of Radiology at Scottish Rite Hospital for Children. John, a Police Psychologist, retired a few years later. Their family includes daughter, Jennifer, her husband Rich, and three grandchildren. Lois has been an active PPC member for over 25 years. She has served as Co-President, PPC committee officer, and photography class instructor.

### **Club Milestones**

The Plano Photography Club has been growing. As of this month we have 172 members. Of those, 69 entered the competition this month. This includes 23 in the Entry Class and 20 in the Intermediate Class. It is encouraging that our newer members are competing.

We regularly have 80 to 90 people attending our monthly meetings. Our growing club continues to be a dynamic organization thanks to the hard work of the board members and volunteers. Most of all our success is due to you, our members. Thank you. The training schedule for September 19, 2019:

Training

Lightroom - Not Meeting This Month.

Exploring Still Life Photography - Room 1. - Last class.

Competition Mentoring for Beginners - Not Meeting This Month .

Photography Fundamentals - Room 8 - Class Is Full. No New Participants. Next Class in January.

# **Dolly Python Photoshoot.**

July 20<sup>th</sup> members of the club toured the *Rainbow Vomit*. Here are some of their images.

## Linda L. Grigsby

# This another in a series of interviews with prominent club members.

#### About me:

North Texas has been my home for most of my life. I was educated here, married here, and raised a daughter here. I have been a member of PPC for many years.

# What do you like to shoot, how often do you shoot, etc.?

My photographic interests are landscapes, abstracts, travel, buildings, and events. I also like to use software processing filters to express myself in my photographic art.

Since I belong to several photographic groups (PPC, Heard Nature Photography, Complete Photographer, and the Focus Ministry at The First United Methodist Church in Richardson), I am taking photos often. I also volunteer to take photos for the Richardson Fire department and the Richardson City Parks and Recreation Department.

# Describe any photo shoots and/or photo trips you want to do in the next few months.

In the near future I plan to join PPC members for the Kelby Photo Walk in October and Cedar Hill State Park in December. In October I am going to the Big Bend with

the Heard Club and in November I am going with them to Mowdy Ranch. Next year I have photo trips planned for Vietnam/Cambodia, Croatia, and Japan.

#### What lens do you use most often?

My Canon 24 – 105mm lens is versatile and I use it most often.

# What software do you use for post-processing your images?

Lightroom is where I start my processing. If I have a difficult item to remove from a photo or I want to add a filter, I use Photoshop. Since I like to experiment with processing, I also use Topaz, On1, and Nik.

## Any photography advice for our club members?

This is the advice that I would give club members: Always keep learning; Take photography courses; Try something new; Get outside your comfort zone; Enter club competitions to get feedback from experienced and more knowledgeable persons; Volunteer for the club; Go on field trips and meet members who may be able to help you with your photography growth; Take advantage of the classes that the club offers; and Have fun!

## Why I Like Field Trips - By Dennis Fritsche

Club Field Trips are an underused part of what the Plano Photography Club offers its members. I go on as many activities as I can with PPC and the other two clubs where I am a member. Our club has more than 120 members and a well-attended activity might have 20-30 photographers. Why should you attend the activities and field trips?

1. You get to hang out with a bunch of cool photographers.

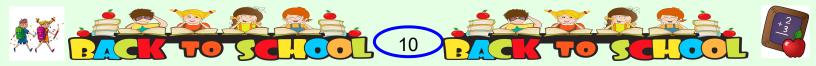

2. You can learn from others. If you are new to the club or photography, ask someone if you can tag along with them or ask for help with your camera or a technique.

3. You might find a new location in your own neighborhood.

4. Going on extended trips, such as to Beavers Bend in November, gives you the opportunity to explore another part of the county.

5. If you have not planned a photographic trip, you can see how it is done and learn that the most important part of any trip is determining "where are we going to eat?"

I encourage you to take advantage of these opportunities to expand your skills and your horizons.

## President's Message: You Don't Make A Photograph Just With A Camera

"You don't make a photograph just with a camera. You bring to the act of photography all the pictures you have seen, the books you have read, the music you have heard, the people you have loved" famous words from none other than Ansel Adams. In the end, some will see the simple photograph you took while others will go deeper and see what you saw, studied impacted by the music and people you love.

PPC is a lot like a photograph. Some see just a monthly meeting about photography. While others see behind the scenes in all that goes into the third Thursday of the month "show". Earlier in the month, a dozen are so people met to

discuss their various areas of responsibility. Our work is not only for the current month, but in some cases reaches out over the next couple of years. The monthly speakers are set up well in advance on subjects that are to be of interest to members. Events and activities are created, coordinated and managed both real time while also addressing ideas months out. Who is going to be our judge for the November contest? Yes, we have it secured. How is it we are recognized by PSA and GSCCC? It is due to the constant work of good people. Coming soon, wait to you see what we are going to do to herald PPC photographer's work in exhibits. We have educational programs that reflect what the membership desires taught by some great instructors. The Flash does not print itself and the webpage is constantly changing; thanks to the work of a few. Ever wondered how the shows and music are put together? Even all the above ignores the great efforts by the business side of the house (treasury and membership). The "show" reflects an undercurrent of a love for PPC.

This coming May, it will be time for "new blood" to step up in the management of PPC. Over the next 6 to 7 months, think of ways that you might like to serve.Not sure what you have to offer, come to the next Executive Council meeting held first Thursday of each month and explore the possibilities. Trust me, it is a lot of fun to be on the inside.
